Preschool and Kindergarten Parents:

These documents are required to be submitted to the office before school entry and no later than your child's first day of classes.

1. **OFFICIAL BIRTH CERTIFICATE:**

Sorry, we cannot accept the hospital certificate. Copies for South Dakota births can be obtained in person from a county court house, requested by mail, or ordered online. Here is a link for more information on how to get a copy:

<https://doh.sd.gov/records/birth-records.aspx>

2. **STUDENT PERSONAL INFORMATION SHEET:**

A copy is available with registration information.

3. **IMMUNIZATION RECORD:**

Please bring an up to date signed **long form** copy from your health care provider or community health nurse of immunizations received. The following is a list of the requirements including those that will be needed for kindergarten entry.

South Dakota Codified Law 13-28-7.1 requires students entering school or early childhood programs to present certification that they have been adequately immunized, according to the recommendations of the Department of Health. The law applies to all children entering school for the first time, including transfer students. Minimum immunization requirements are defined as:

1. Four or more doses of **diphtheria, pertussis and tetanus containing vaccine**, with at least one dose administered on or after age 4. Children 7 years and older needing the primary series only need three doses. The first dose of the primary series should be Tdap and the second and third doses should be Td, with at least 6 months between dose two and three. Children receiving six doses before age 4 do not require any additional doses for school requirements. The maximum a child should receive is six doses. If a child 7 years and older has an incomplete DTaP primary series, please contact the Department of Health Immunization Program (1-800-592-1861) for assistance.
2. Four or more doses of **poliovirus vaccine**, at least one dose on or after age 4. (*Although not the recommended schedule - If a child has three doses of polio with the third dose administered on or after the age of 4 and at least 6 months after the second dose, no other doses are required.*)
3. Two doses of a **measles, mumps, and rubella vaccine (MMR) or submit serological evidence of immunity**. Minimum age for the first dose is 12 months. Administer the second dose routinely at age 4 through 6 years. The second dose may be administered prior to age 4 provided at least 28 days have elapsed since the first dose.
4. Two doses of **varicella vaccine**. The minimum age for the first dose of varicella (chickenpox) vaccine is 12 months. History of disease is acceptable with parent/guardian signature. Administer the second dose routinely at age 4 through 6 years. The second dose may be administered prior to age 4 provided the minimum interval between the two doses is 3 months.

Haemophilus Influenzae B, Hepatitis A, Hepatitis B, and Pneumococcal vaccines are recommended but not required.
